Objective

To continue building my skills and keeping up with industry trends as a full-stack software engineer specializing in .NET and React/Redux stacks.

Relevant Experience

Kikoda

Tallahassee, Florida
*Software Engineer, then
Senior Software Engineer*
April 2019-Present

- I help manage a large team of up to 11 developers, performing peer reviews of code, training developers in best practices, and pair programming remotely to help other developers overcome challenges.
- My project uses a microservice architecture including React/Redux, Immutable, C# with Entity Framework, Google Protobufs, MySQL, and an Oracle database for legacy data.
- I use many AWS services at a high level, including CloudWatch, CodeCommit, IAM, and Simple Email Service.
- I built a highly complex service autonomously, which was well received by internal peer review and the client.

Various Organizations

Tallahassee, Florida (remote)
*Programming/Writing/
Editing Contractor*
September 2017-April 2019

- I did full-stack programming, editing, writing, social media management, research, and project management for a wide variety of organizations in Berkeley, California and Tallahassee, Florida.
- Under my stewardship as content editor and social media content manager, the viewership of the Centre for Effective Altruism YouTube approximately doubled in size.

Infinity Software Development

Tallahassee, Florida
Software Developer/Analyst
January 2016-August 2017

- I used a variety of languages, including C#, Javascript/Typescript, SQL, and PHP, to build full-stack enterprise web applications.
- I worked on multiple projects with widely varying teams, creating and maintaining production code.
- I created a web application for internal company use, which was code reviewed by a senior developer and evaluated by Infinity's owner.

Solution Skills, Inc.

Tallahassee, Florida
Director of Education and Learning
November 2013-December 2015

- I tutored math, English, and logic for the GRE, SAT, ACT, and LSAT, and trained other instructors on how best to teach these tests.
- I did all test content training for other instructors.
- I helped high schoolers and their parents with the college application process, speaking at free seminars hosted by the company.

Education

New College of Florida

Sarasota, Florida
*Bachelor of Arts in
Philosophy*
August 2009-May 2013

- New College is the honors college of Florida. There are no grades. New College uses a contract system, and requires the completion of an extensive senior thesis.
- My thesis explored good and bad reasons for getting into arguments.
- I satisfied all of my academic contracts while at New College.

Qualifications and Honors

- Used Python to solve a standing problem in cellular automata as an undergraduate.
- Scored a 171 on the LSAT (98th percentile), and a perfect score on the essays and math sections of the GRE.
